SO‘Z BOSHI

Mustaqillik sharofati bilan o‘zbek va qoraqalpoq tillari yanada bo‘y cho‘zib, rivojlanib borayotgan bir davrda O‘zbekiston va Qoraqalpog‘istonning iqtisodiy, ijtimoiy-siyosiy, madaniy rivojlanishi jarayonida har ikkala til orasidagi o‘ziga xos farqli jihatlarni tushunish va ilg‘ay olish har bir ziyoli va madaniyatli shaxsning vazifasidir. Chunki hamjihatlikda barpo etilayotgan O‘zbekistonning buyuk kelajagi har bir fuqaroning ma‘naviy yetukligiga va fidoiyligiga bog‘liq.

Buning ahamiyati va dolzarbligini anglagan Ajiniyoz nomidagi Nukus davlat pedagogika institutining bir guruh professor-o‘qituvchilari 1990-yilning o‘rtalaridayoq mazkur lug‘atni tuzishni boshlab yuborgan edi. Bunga ba‘zi bir noto‘g‘ri munosabatlarning ta’siri natijasida bu ish shu kungacha cho‘zilib keldi. Albatta, bu ikki xalq tilining yaqinligi va iqtisodiy-ijtimoiy birligi, tillarning o‘zaro munosabatiga ta’sir qilishi tabiiy. Binobarin, har ikkala tildagi ko‘pgina so‘zlarning o‘zgachaligi ba‘zi harflarning o‘rin almashishida ko‘rinadi. Masalan, qoraqalpoqcha «Ы» harfining «i» bilan, «а» harfining «о» bilan, «о’» harfining «v» bilan o‘rin almashishini anglagan ziyrak o‘quvchi bu masalada qiynalmasligi so‘zsiz.

Ammo til ham tirik organizm kabi rivojlanib, yangi so‘zlar bilan boyib boradi va o‘sha so‘zlarning ma‘nosini bilish, muloqot jarayonida ahamiyatli masala bo‘lganligi uchun lug‘atni tuzish jarayonida ushbu farqlar hisobga olinib, shu prinsipga tayanildi.

Mazkur lug‘atning asosini O‘zbekiston Respublikasi Fanlar akademiyasi Til va adabiyot instituti tomonidan 1988-yili S. F. Akobirov va G. N. Mixaylovlarning muharrirligida nashr qilingan 50 mingga yaqin so‘z va tushunchaga ega bo‘lgan “O‘zbekcharuscha lug‘at”, O‘zbekiston Respublikasi Fanlar akademiyasining Alisher Navoiy nomidagi Til va adabiyot instituti tomonidan

2006–2008-yillarda nashr qilingan 80 mingdan ortiq soʻz va tushunchani qamragan 5 jildlik “Oʻzbek tilining izohli lugʻati” tashkil qiladi.

Qoraqalpoqcha–oʻzbekcha lugʻat tuzishda Oʻzbekiston Respublikasi Fanlar akademiyasining Qoraqalpoq kompleks institutining Moskvada 1958-yili professor N. A. Baskakov muharrirligida nashr qilingan 30 ming soʻzdan iborat “Qoraqalpaqsha–orusssha soʻzlik”ga asoslandik.

Mazkur lugʻatlarni qiyoslab tahlil qilganimizda oʻzbek va qoraqalpoq tillarida asosi va lugʻaviy maʼnolari bir xil boʻlgan soʻzlarning anchagina ekanligi ishimizni yengillashtirdi.

Diqqatingizga havola qilinayotgan mazkur lugʻatlar bugungi kunda ijtimoiy ongning oʻsib rivojlanishi uchun yordam berishini nazarda tutib, barcha oʻquv oʻrinlari, boshqaruv xodimlari va har bir savodxon shaxsning zaruriy qoʻllanmasi boʻladi, deb ishonamiz. Lugʻat har bir kitobxonning quvvayi hofizasining kengayishiga koʻmak bersa, bizning vazifamiz bajarildi deb hisoblaymiz.

Hurmatli oʻquvchi! Mualliflar lugʻat haqidagi fikr-mulohazalaringizni mamnuniyat bilan qabul qiladi.
