# 1 First impressions

## Starting point

- 1 Why are first impressions so important in business?
- 2 What gives us a first impression of a company or a person?

## Working with words | Talking about first impressions

- 1 When you want to know more about other companies or about colleagues and clients before you meet them, where do you normally start looking?
- 2 Read this text about online impressions. Which paragraph (1-3) is about ...?
  - a how companies need to make sure their website maintains a visitor's interest
  - b how people get their first impression of you or your business by going online first
  - c how people looking for work need to check their digital history before applying for a job

## VIRTUAL IMPRESSIONS

1 These days creating a good impression is more than just shaking hands and presenting a well-designed business card when you first meet someone. That's because before you even attended a meeting with a prospective client or a potential employer, you can guarantee that they've already searched your name, checked to see if your company has a good reputation via online review sites and even searched your personal online history.

2 To manage your online profile, start with your company's website. According to researchers at the Missouri University of Science and Technology, it takes under three seconds for an online visitor to start to form an opinion of your brand from the website. The researchers also tracked eye movements and discovered that visitors tend to gain their first impressions from the logo, photographs, menus and, in particular, the opportunity to make contact via social media. In other words, projecting the right kind of online image is not just about looking good, but companies should also make sure their customers can interact with them and start building a relationship.

3 Individuals such as freelancers and job-seekers also need to think carefully about their social media image before posting photos and comments online. A recent survey of 450 employers showed that more than 40% had taken a dislike to a potential employee as soon as they'd checked the person's Facebook page. One typical reason for rejection was finding out that the information on the CV didn't match the applicant's online profile. It's a good idea for anyone who is self-employed or looking for a job to think about how they come across to people and to make sure their online profile promotes a positive and truthful image.

TALKING POINT

The life overlap

These two Venn diagrams compare how the overlap between our working life and personal life can affect us. The first diagram highlights how frustrated we can become when we try to separate our personal life from our working life: there is very little overlap in the diagram and so this person is leading two separate lives which often leads to frustration. In contrast, the second Venn diagram shows a much larger overlap. This kind of person tends to be reconciled to the fact that their work is also part of their personal life; they don't change their character at work and in general they work on things that interest them and so aren't frustrated by their situation.

Discussion

- 1 Are you able to stop working when you leave your place of work or do you often continue dealing with work from home (or on your phone)?
- 2 How easy do you think it is to separate your work and non-work life?
- 3 How much do you agree with the solution of allowing your personal

The page content includes a large image of a rocket launch and a section titled '3 On schedule'. Below the image, there are instructions for a 'Starting point' and 'Working with words | Managing projects' activity. A matching exercise is also visible, with a list of words on the left and a list of phrases on the right.

- Join another group and list your stages. Add any new ideas to your list.
- Read the article about planning and building theme parks. Which of your stages does it mention?

**Unit 3 / On schedule**

5 Match 1-10 from the phrases from the article.

1. get lost	A. construction
2. budget	B. launch
3. manage	C. set track
4. evaluate	D. budget
5. raise	E. planning
6. evaluate	F. launch date
7. raise	G. problems
8. get over	H. the deadline
9. set budget	I. budget
10. make the	J. schedule

6 Think with a partner: Do you associate the phrases in 5 with successful (S) or unsuccessful (U) projects, or both?

7 Match the words to hold in 5 with a phrase with the same meaning from 5.

- To avoid problems later on, let's start with some preparation before we do anything else. **start planning**
- Do we have a suitable amount of money on our own prepared to do this without spending anything?
- Can I spend as much as I like on this? From my limitations to the amount of money I have?
- At this rate, we won't meet the deadline to have it in the shops.

**Working with words | Cultural differences**

1 If you do business with a different culture, what is it useful to know about that culture? Read the text and compare your ideas.

**Working across cultures**

2 Read the text again. According to Habibovic, which cultures...?

1. Think family life is important
2. It is to be very polite to their manager and to follow rules and regulations
3. adapt easily to change

3 Discuss questions 1-2 in a class.

1 Look at the four pairs of key factors in the text. Which of the key factors would you use to describe your culture?

2 Based on your experience of working with and meeting people from other cultures, could you agree with Habibovic's conclusion? Why/Why not?

4 Think with a partner. Match the adjectives in bold in the text to definitions 1-10.

2. organized in levels
3. flexible
4. careful
5. receptive of new ideas
6. allowing freedom
7. shared by all the group
8. something which must be obeyed

Business communication | Narrating past events

**Context**  
Critical incidents are common modern phenomena which the participants find undesirable or disturbing. They often consist of a misunderstanding, a linguistic error or some other kind of failure for you. They are serious and can trigger a chain of events which affect the business and its future. They are almost inevitable in different ways, particularly when people from different cultures negotiate and communicate with each other.

**Key expressions**  
Doing an incident  
It seems that...  
The reason being that...  
It seems about because of...  
Linking the narrative  
I wasn't sure... but...  
Luckily...  
And that then...  
What's more...  
Despite...  
Time expressions  
What's what...  
At last...  
After that...  
By the time...  
In the end...  
Encouraging more information  
So what did you do?  
What was the result?  
And what did they say?  
What happened next? Then / after that...  
That's understandable...  
So you / I did...  
What was the result?  
So how did you...?  
**Remembering the narrative**  
That was what...  
But she was the first...  
In all...  
It really surprised me that...  
I was extremely disappointed...  
I was extremely disappointed...

**4** Work with a partner. Read the text about doing business in Indonesia. Use the pictures and phrases to tell the story of the critical incident.

**DOING BUSINESS IN INDONESIA**  
It's important to offer visitors to guests. This is very important in Indonesia. Guests about and before drinking - they first see visitors when they are in the room.  
Offer them a glass of water when they are in the room and bring them a drink. The sign to drink the water is to see. Make sure you see and then you have a drink.  
After that then...  
What's more...  
Despite...  
Time expressions  
What's what...  
At last...

I was extremely disappointed...

**5** Work with a partner. Think of a situation where there was a misunderstanding between you and someone from a different culture, e.g. an Indonesian on holiday. Tell your partner about the incident. Use these ideas if necessary.  
• in a restaurant - ordering food and drink • at a business meeting  
• talking about your country / background • at a business / class  
• being unaware of traditions / customs • on the phone

8. Have you heard the news?  
9. Apparently...  
10. You'll never guess what I heard...  
4 Work in groups of four. Think of two pieces of news each. Work with a partner and share your first piece of news. Respond to your partner's news appropriately. Change partners and share your second piece of news.

Unit 11 | Culture

Language at work | Narrative tenses

**1** Read this story about a billiard entrepreneur. Do you think it's true? Why / Why not? Discuss your ideas with a partner.  
**2** Work with a partner. Imagine events in the order they happened (1-10). The character and the action changed the order...  
a The car had a flat tyre...  
b The billiard entrepreneur drove the motorbike...  
c The character returned to enable to change the wheel...  
d The billiard entrepreneur got the motorbike...  
e A passing motorist stopped to help...  
f Some flowers arrived at the man's house...  
g The billiard speaker in the news...  
**3** Answer the questions in the Language point.

**TALKING POINT**  
**The power of storytelling**  
There are a lot of good stories. That's because stories are emotional. While we'll listen to facts and then forget them, we'll listen to a good story and remember it.  
So, as a business, stories are powerful. A good story is a well-told sales pitch. It's a CEO presenting a company's future vision to the employees. It's explaining how you came up with an exciting innovation to a group of potential investors. And it's a word-of-mouth recommendation from one satisfied customer to another. Whatever your story, here's how to tell it.

Unit 15 | Career breaks

**TALKING POINT**

**Goodbye and see you next year**

Career breaks and gap years might sound great, but what if you can't afford to give up your job for a year? Or you don't want to stop working for a year? Do you want to see the world? **Remote Year** is one solution. This company has a job program because all its participants already have a job. Its role is to set up a 12-month travel programme for remote workers - people who do their job as long as they have a laptop and an internet connection.

In the first year, Remote Year recruited applications from 25,000 people - you can have to apply and attend an interview. This number rose to 50,000 in the second year. Remote Year now offers a total list of 70 'digital nomads' who want to spend 12 months together in 12 different cities. Remote Year requires participants and workplaces in each new location. It will even provide guidance on how to get your employer on board with the idea.

Of course, there are some difficulties. First, you have to convince your boss that you can still work as effectively on the other side of the world as you can in the office or home office. And what happens if there's no Wi-Fi in your hotel or your laptop breaks in the middle of the desert? To handle these kinds of problems, you happen to happen.

What you learn - according to Remote Year - in their first year doesn't always happen in an office either. "You have work happen when you had expected it's hard to find inspiration in a meeting."

**Discussion**

- What are the advantages of Remote Year compared to taking a career break or gap year?
- If you were away for 12 months with Remote Year, which 12 cities would you like to visit? Why?

Do you think your employer would agree to your plan? What objections might your employer have?

**Task**

- Work with a partner. Imagine you work for Remote Year and you are going to interview someone who would like to travel with your organisation for 12 months. Think about the types of qualities and skills that a person would need for this type of working and living. Then write a list of around six interview questions.
- Change partners with another pair. Take turns to role-play an interview. Ask and answer questions from your list in 1.
- Work with your partner in 2 again. Report back on your interview and explain if you think the person you interviewed is suitable for the Remote Year program.
