“iPod” Playerini yasash mashqi

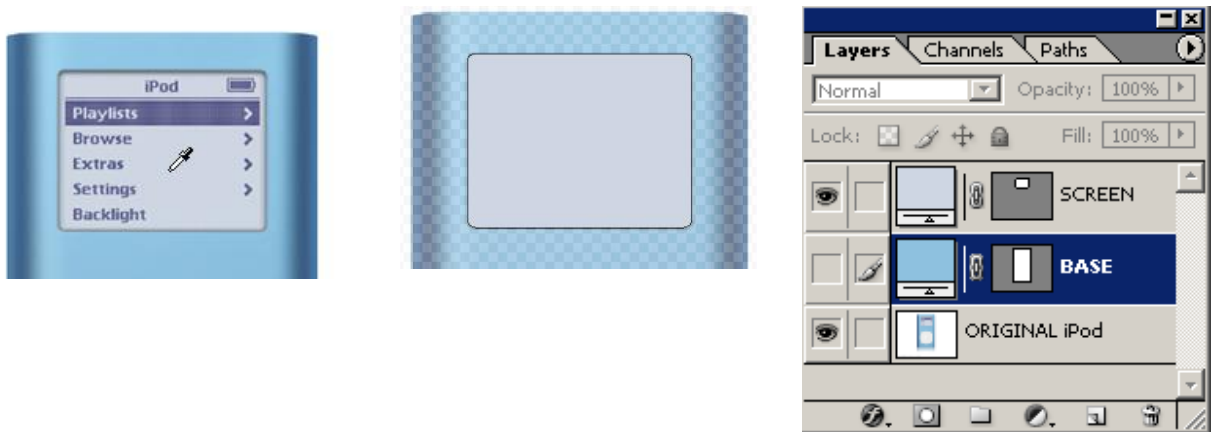

1. Chapter_04_iPod_Start.psd fayilini ochib tomizg'ich uskunasi yordamida iPod tasvirining o'rtasiga chertib rangini aniqlang.

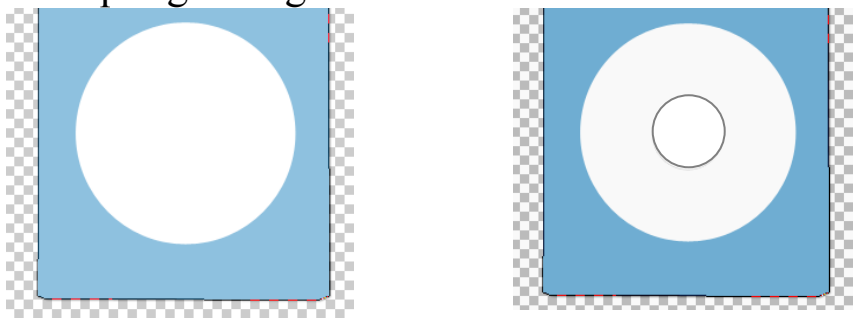

2. [Pen] aslahasi yordamida [Shape layers] holatida iPod shaklini chizib chiqing. (Ishni osonlashtirish uchun qavatni Opacity berilmasini kamaytiring.) Yangi, hosil bo'lgan qavatga “Base” nomini berib, uni vaqtincha yashirib qo'ying.

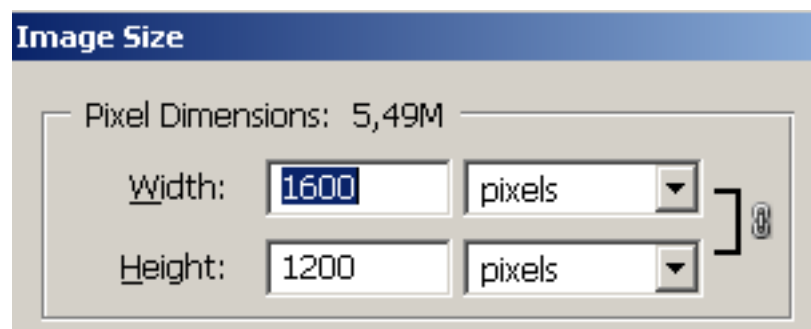

3. Tomizg'ich uskunasi yordamida iPod ekraning o'rtasiga chertib rangini aniqlab, [Rounded rectangle] (tumalaq simon to'rtburchak) aslahasi yordamida (Radius berilmasi: 5px) ekranni hosil qiling Yangi, hosil bo'lgan qavatga “SCREEN” nomini bering.

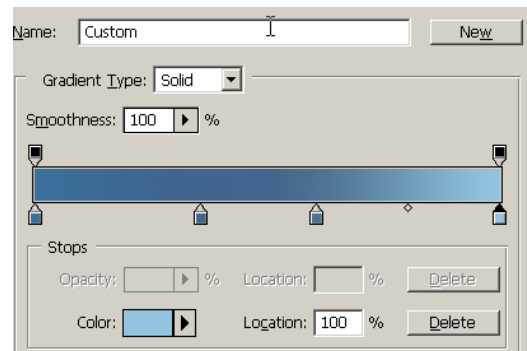

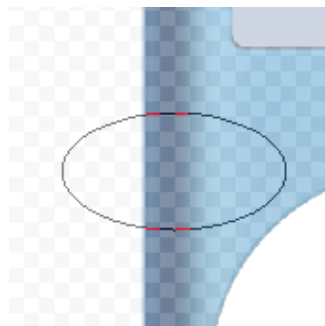

4. [Ellipse] aslahasi yordamida [Shape layers] holatida ikkita doira hosil qiling. Ularga “OUTER” va “INNER” deb nomlar bering.

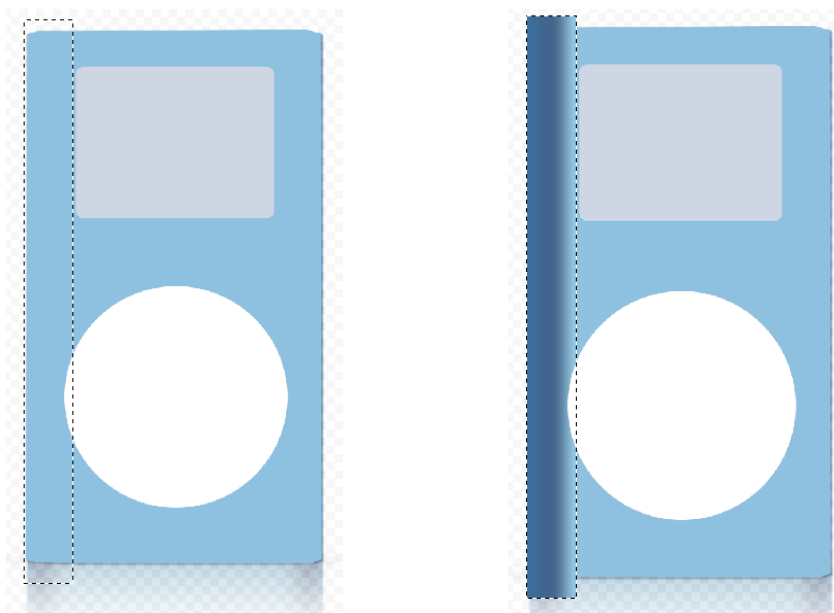

5. Menunig [Image – Image Size] bo’limi yordamida rasmni o’lchamini o’zgartiring

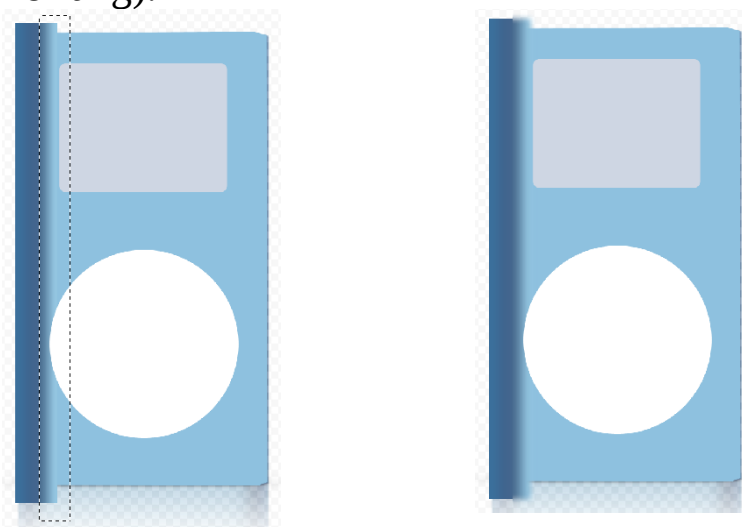

6. iPod tasvirining chekkasidan tomizg’ich uskunasi yordamida to’rtta rang nusxasini olib, yangi gradient hosil qiling.

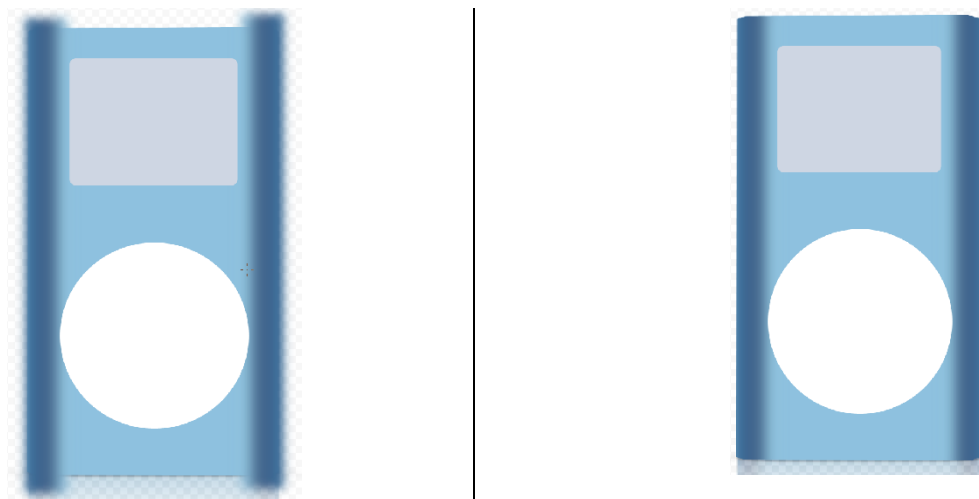

7. “BASE” qavati ustidan yangi “ROUNDED SIDES” qavatini yarating, quyidagicha belgilab ichiga gradiyentni quying.

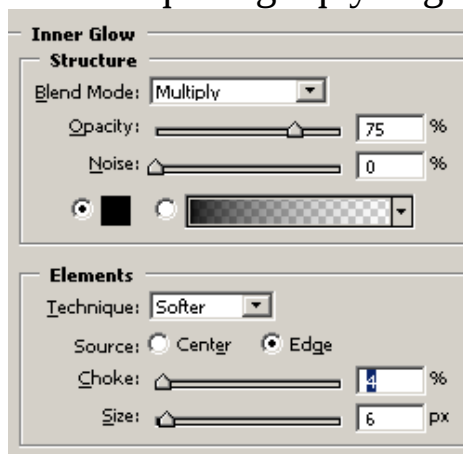

8. Gradiyent rasmga mayin yotishi uchun rangli o'tish qismini belgilab, [Filter – Blur – Gaussian Blur] yordamida 5 px berilmasi bilan yuving (Kerak bo'lsa Ctrl –F yordamida filtni takrorlang).

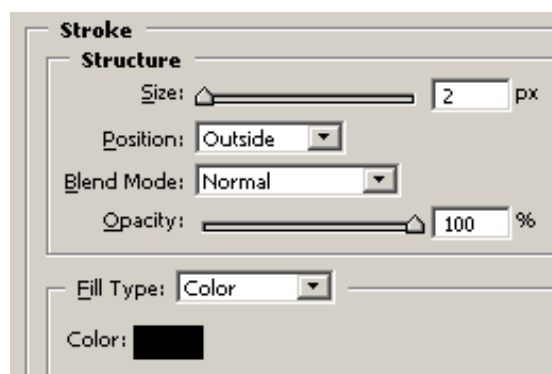

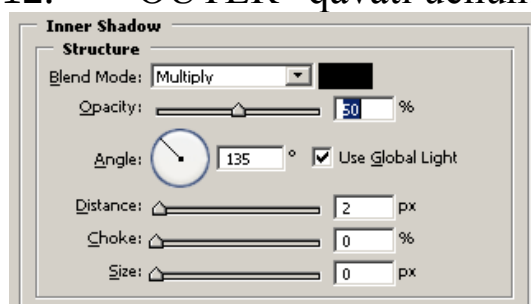

9. Hosil qilgan qavatdan nusxa olib, uni gorizontal bo'yicha aksini toping. (Edit – Transform – Flip Horizontal).

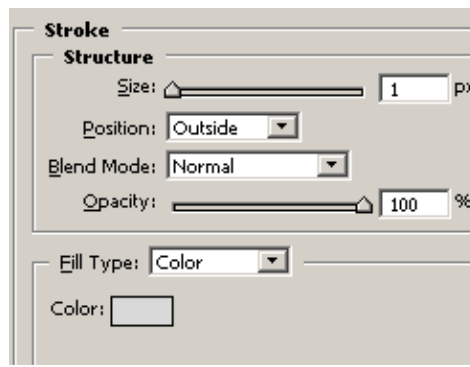

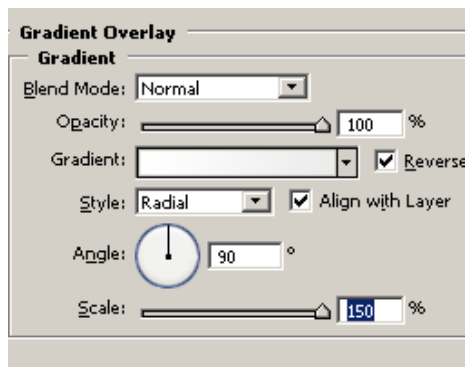

10. Ikkala yangi qavatlarni [Ctrl-E] yordamida birlashtib, [ROUNDED SIDES] faolligida [Ctrl-G] tugmalari yordamida ning kerak bo'lmagan qismlarini o'chiring.
11. "SCREEN" qavatiga quyidagi usulni tadbiq qiling:

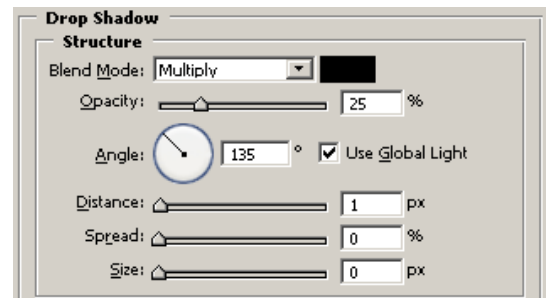

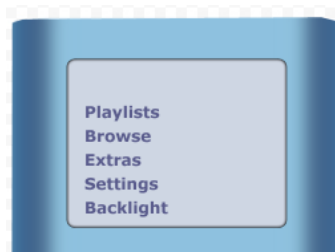

12. "OUTER" qavati uchun:

13. "INNER" qavati uchun:

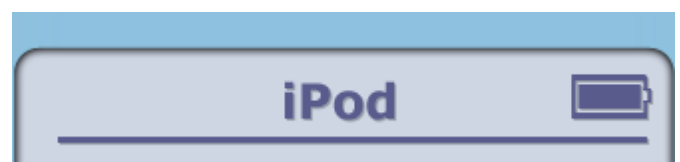

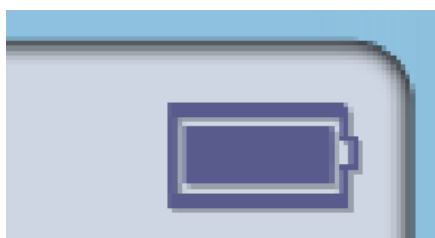

14. “Verdana” usuli “Bold” shrifti va oldi rangni R:89 G:91 B:140 bilan “SCREEN” qavati ustidan kerakli matnlarni hosil qilib, ularga Drop Shadow usulini tadbqiq qiling.

15. Ekranning yuqori qismiga iPod yozuvini kiriting va oldingi qavatdagi usuladan nusxa olib (Copy Layer Style), yangi yozuvga tadbqiq qiling (Paste Layer Style).

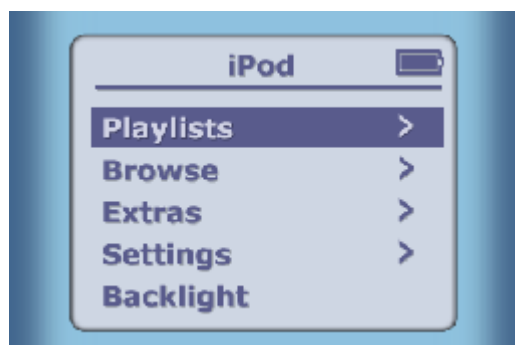

16. [Pen] aslahasi yordamida batareya va ajratish chizig'ini hosil qilib ularga ham usulni [Paste Layer Style] orqali tadbqiq qiling.

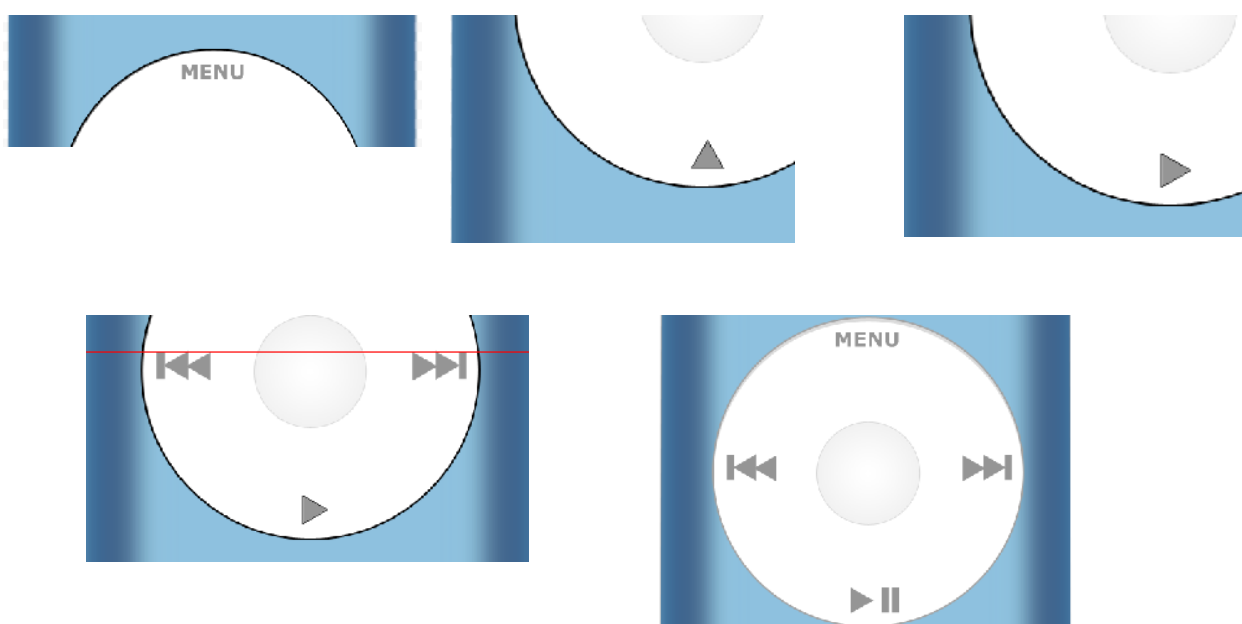

17. Playlists yozuvini menu ko'rinishida qilish uchun tagiga yangi qavat qo'shib kerakli qismini belgilab rang (R:89 G:91

B:140) quyting. Matnni esa R:209 G:211 B:229 rang bilan bo'yang.

18. Quyidagicha iPod -ning menyusini hosil qiling.

19. Ish yakunida playerga aks hosil qiling:
