# MS Power point dasturini ishga tushirishning 2-usuli

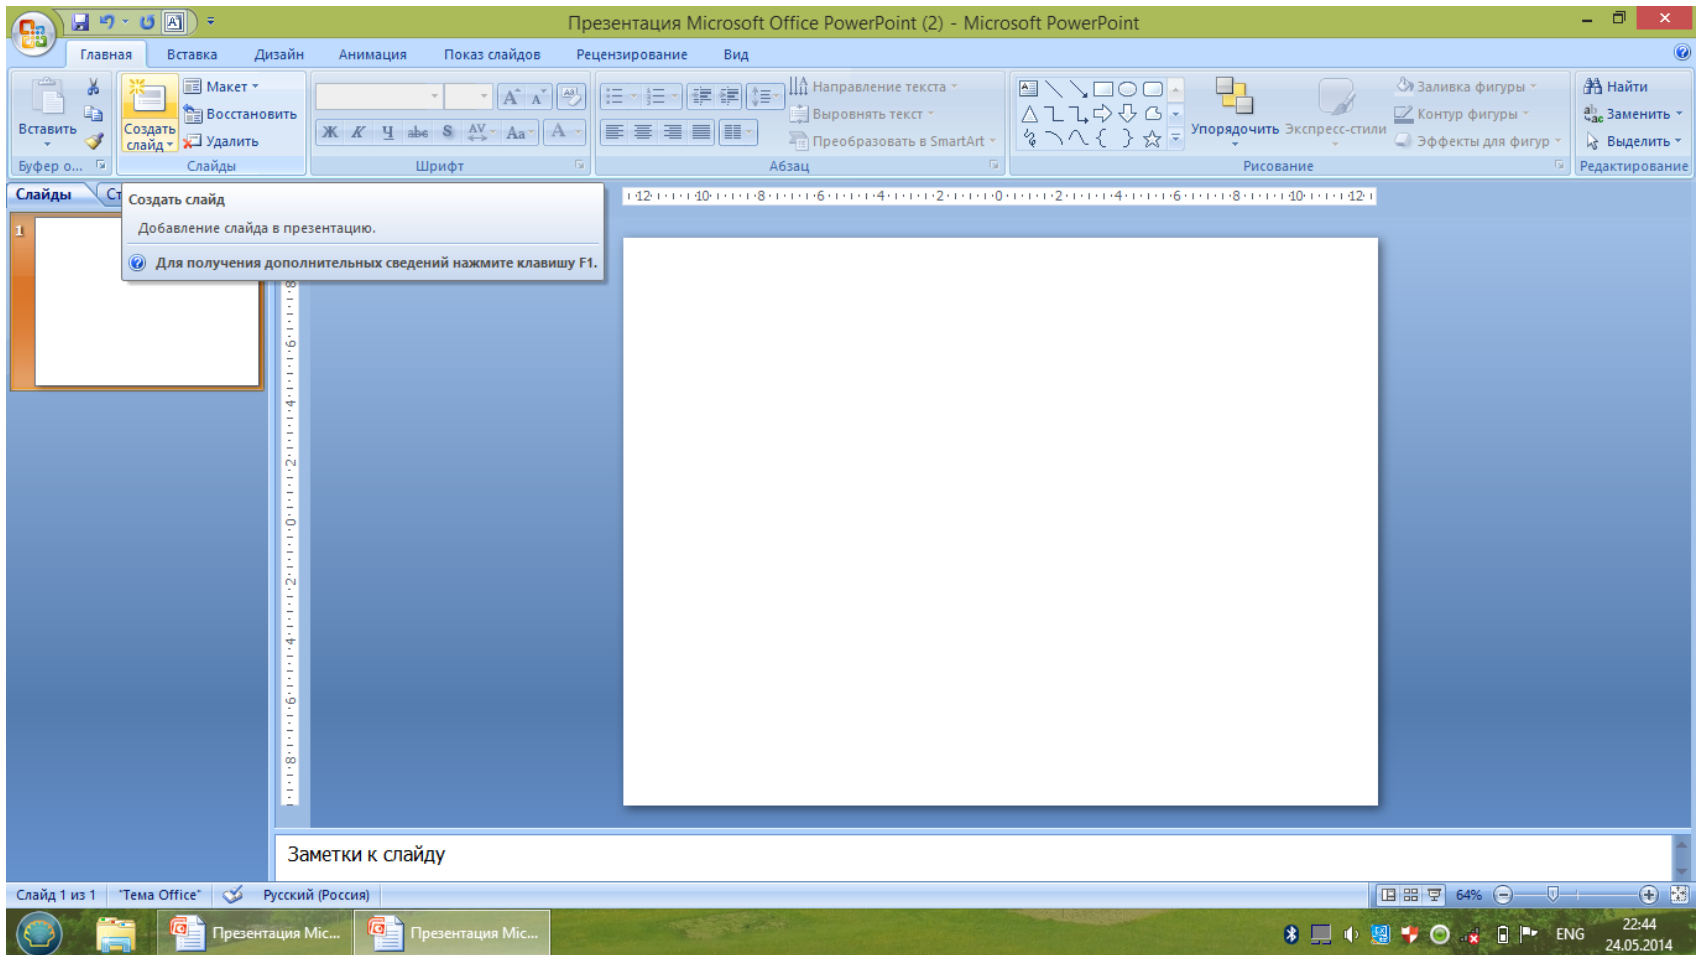

Sichqonchani o'ng tugmasi bosiladi va hosil bo'lgan kontekst menyudan **sozdat bandi undan MS PowerPoint bandi tanlanadi.**

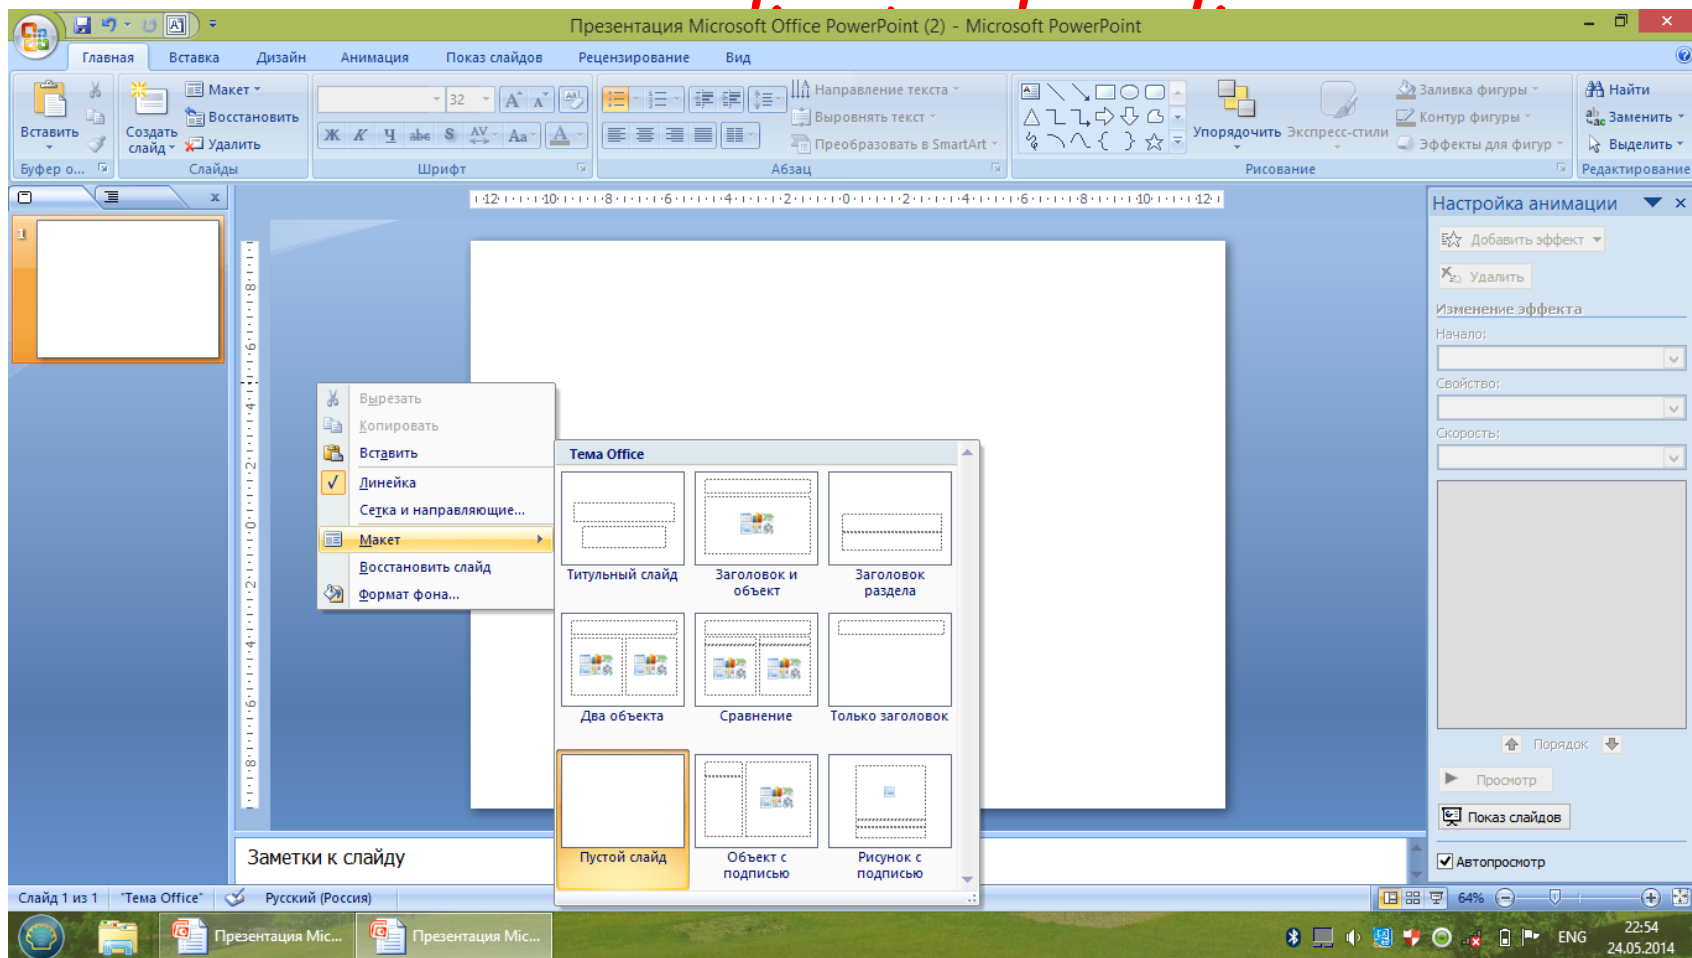

*MS Power Point ishga tushgach quyidagi muloqat oyna hosil bo'ladi.*

Glavnaya menyuning sozdat slayd qismidan yangi slayd hosil qilinadi.

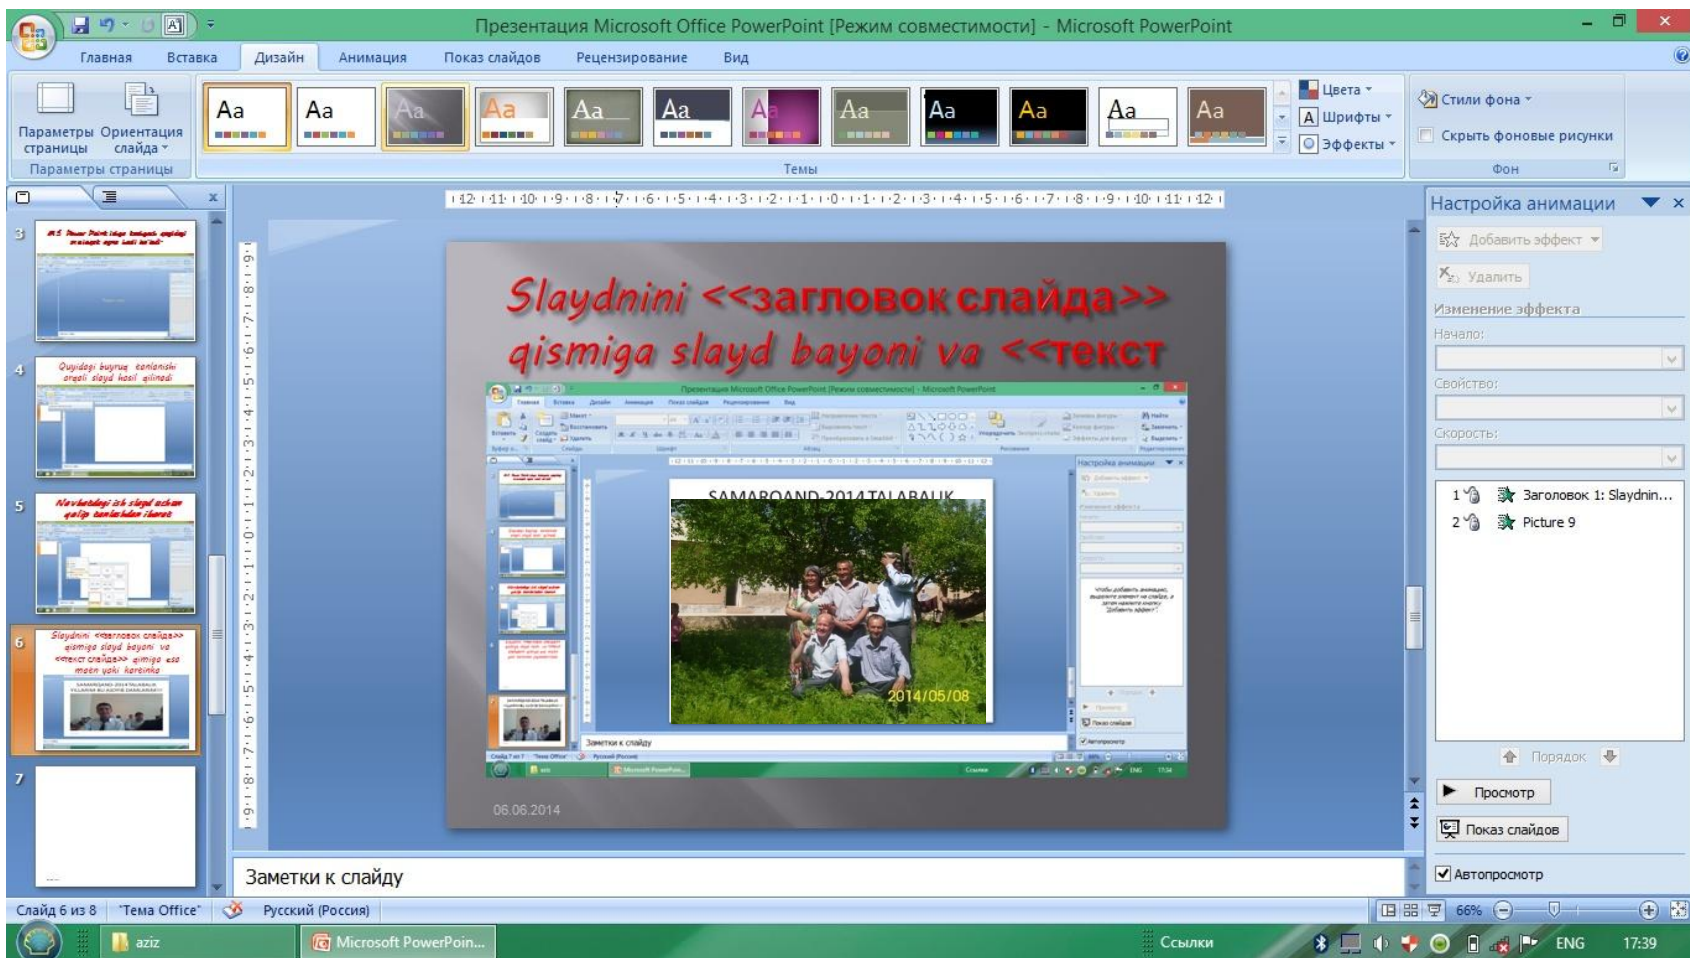

*Navbatdagi ish slayd uchun qolip tanlashdan iborat. Bunda sichqonchaning o'ng tugmasi bosiladi va Maket qismidan*

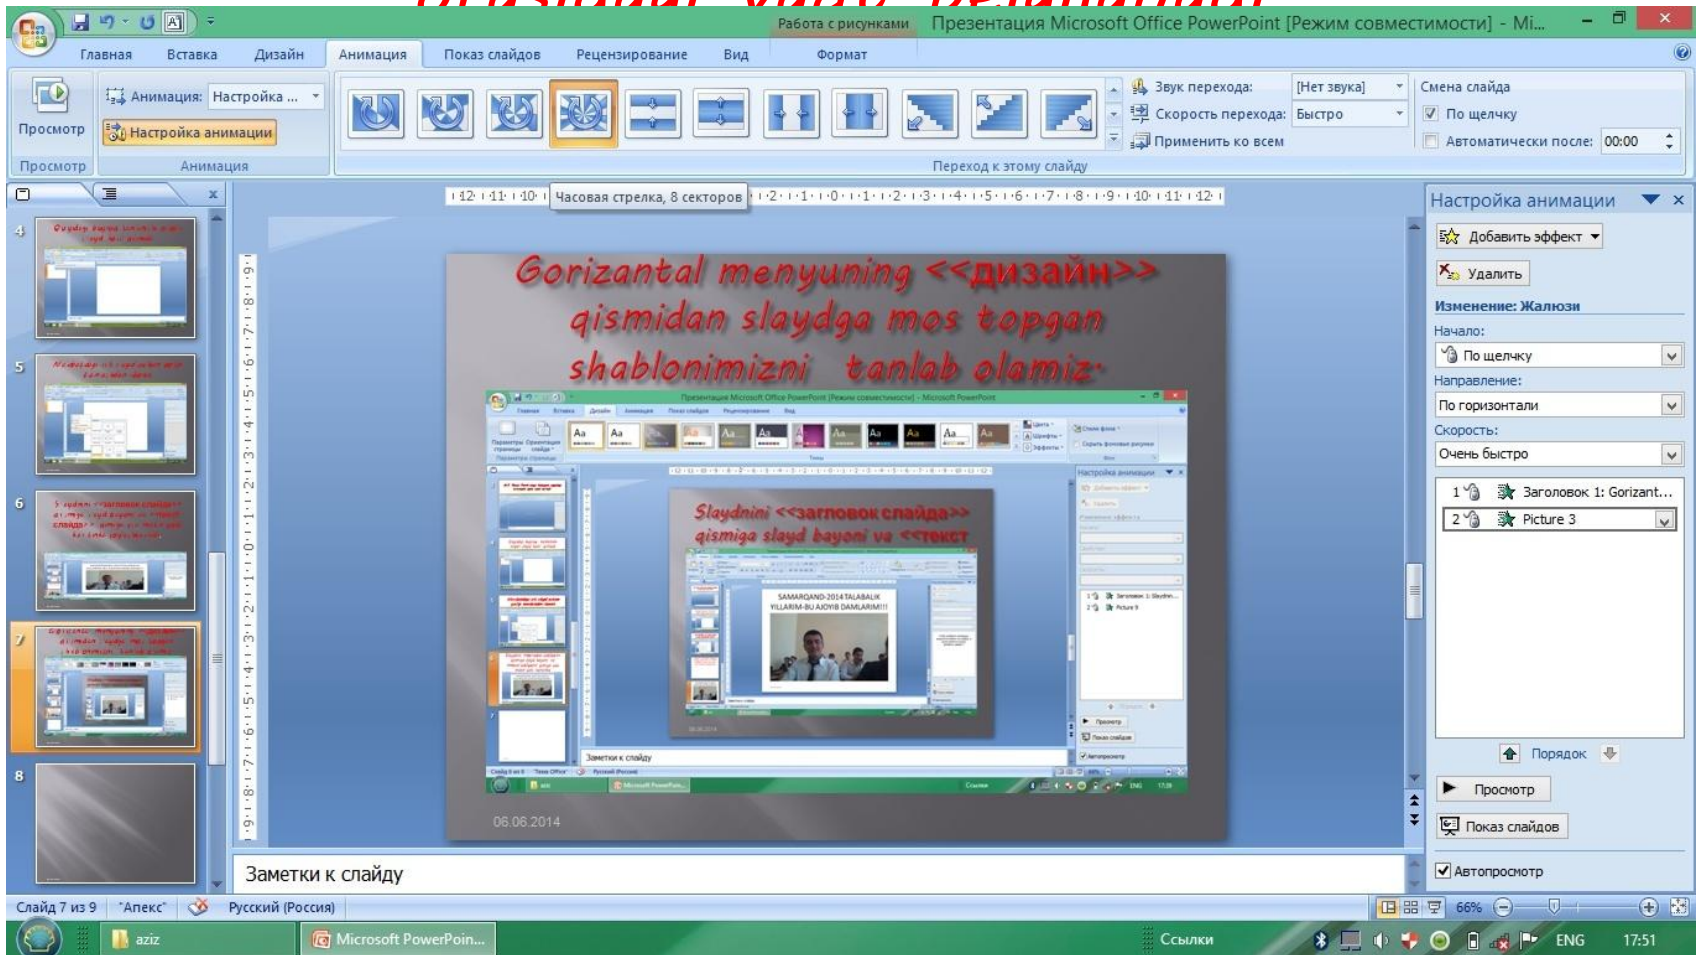

# Slaydnini <<заголовок слайда>> qismiga cloud bayoni va <<текст слайда>> qismiga

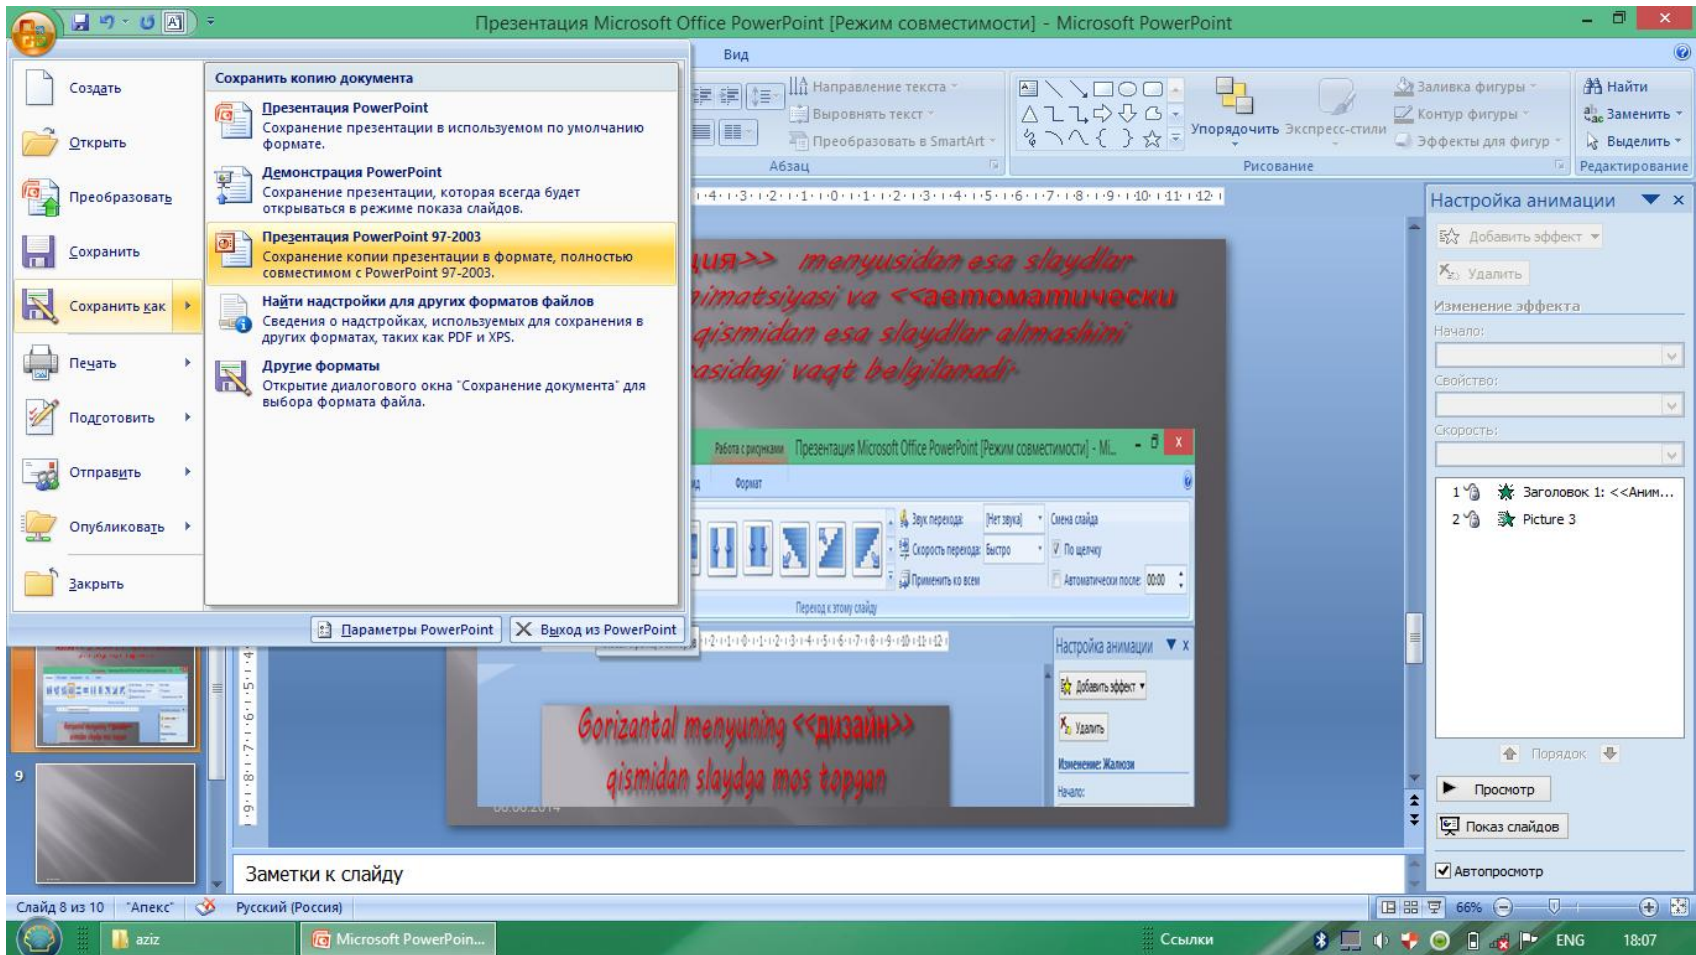

# Gorizantal menyuning <<дизайн>> qismidan slaydga mos topgan shablonimizni tanlab olamiz.

<<Анимация>> *menyusidan esa slaydlar almashinish animatsiyasi va <<автоматически после>> qismidan esa slaydlar almashini orasidagi vaqt belailanadi.*

# Windows belgisidan tayyorlagan prizintatsiyamizni saqlab olamiz.
