

*Nukus State Pedagogical Institut  
named after Ajiniyoz  
3<sup>rd</sup> - "v" group student of the  
Faculty of Primary education.  
Bekmonova Gulnoza*

*Presentation on the topic  
"Agriculture"*

*2016*

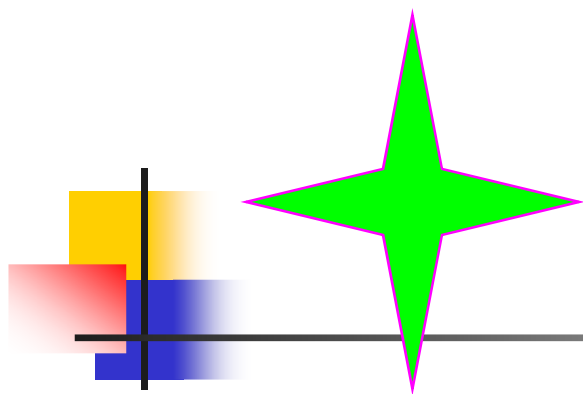

*AGRICULTURE*

**Due to natural and climate conditions of Uzbekistan the development of various branches of its agriculture and growing primarily are based on irrigation. All agricultural production is Grown on the irrigated lands Of Uzbekistan.**

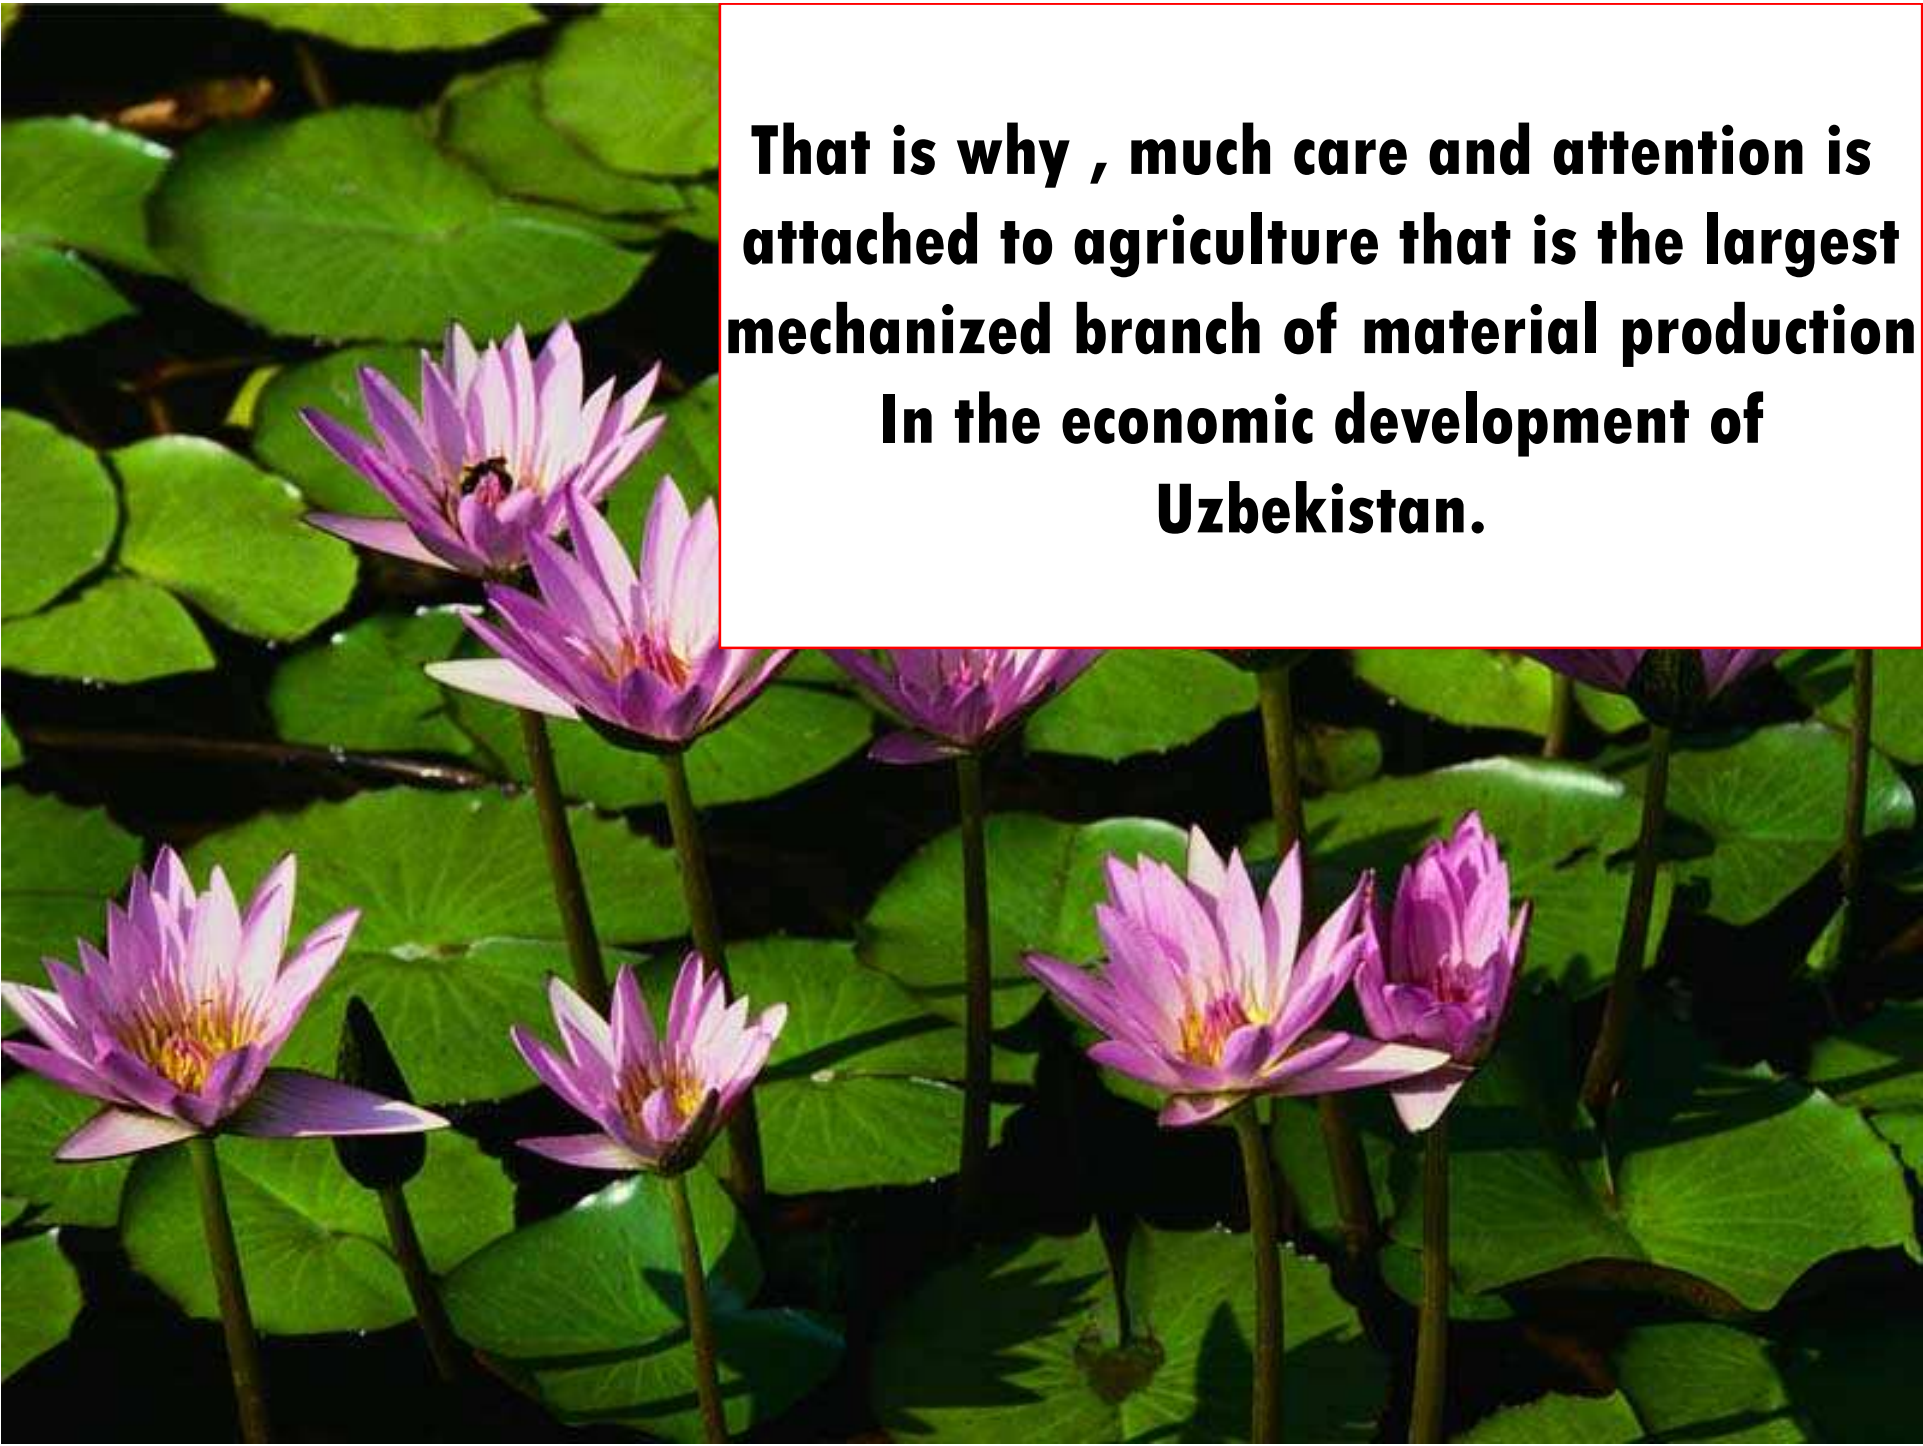

*There is not any country  
in the world inhabitants  
are not involved in agriculture.  
Development of agriculture is  
one of the priority directions  
of economy for the Republic.*

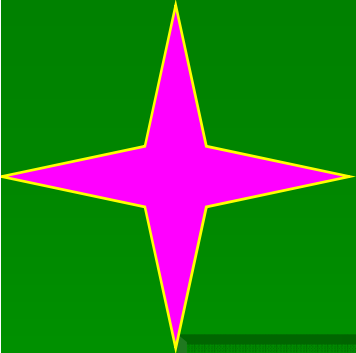

A photograph of a pond with several pink lotus flowers in various stages of bloom. The flowers have multiple layers of delicate, light pink petals with some darker pink centers. They are surrounded by large, round, green lily pads that have prominent veins. The background is dark, suggesting the water of the pond. The overall scene is peaceful and natural.

**That is why , much care and attention is  
attached to agriculture that is the largest  
mechanized branch of material production  
In the economic development of  
Uzbekistan.**

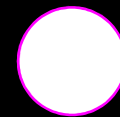

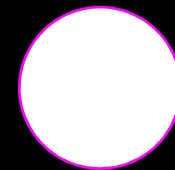

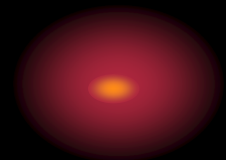

Uzbekiston is the world's fourth cotton producer and the second largest cotton exporter. Only two countries in the world-the USA and Uzbekiston-have factories producing machinery for planting.

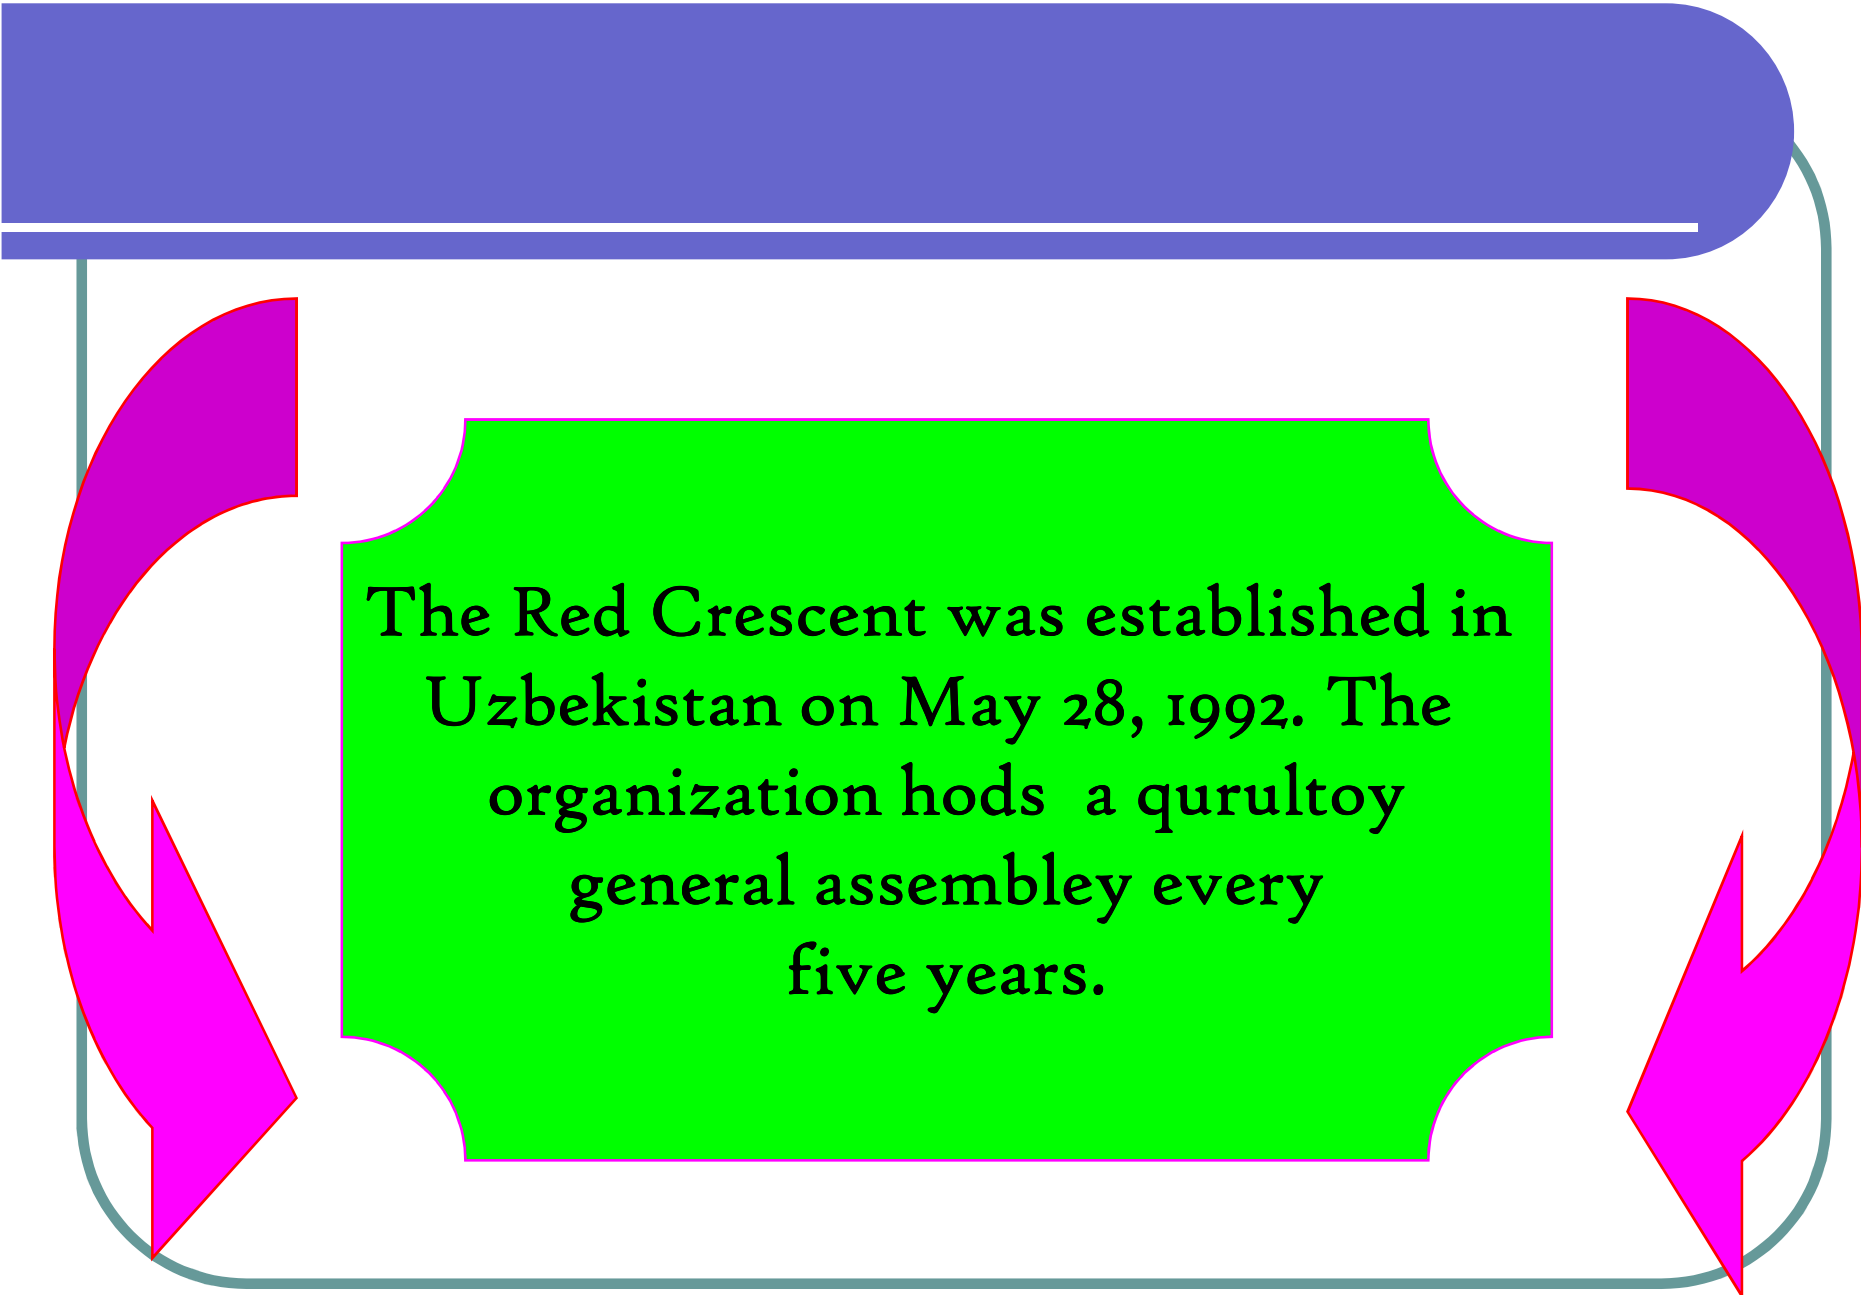

There are many NGOs working in Uzbekistan. They work to Improve all areas of life-health, education, promoting small businesses, and so on , some NGOs working in Uzbekistan are the Health Generation, the Business Womens Association and the Red crescent.

**The fourth area that  
UNISEF is currently  
working in is to support  
children who have special  
problems, those with  
no family and those  
with physical  
and mental problems.**

The Red Crescent was established in  
Uzbekistan on May 28, 1992. The  
organization holds a qurultoy  
general assembly every  
five years.

Cotton threads, yarn and fabric serve for the production of important items of the chemical industry. Cotton oil is made of cotton- seed and serves as an important raw material in oil-press industry. Cotton- oil is a valuable component in the production of various kinds of margarine.

**These subsidiary farms  
produce the most part  
of such kinds of products  
as milk, wool, meat, melon,  
watermelon, vegetables and  
other products.**

**Thus, the agriculture of  
Uzbekistan is characterized  
by diversified and  
dynamically developing  
complex.**

The background of the slide is a landscape photograph with a strong blue color cast. It shows several layers of rolling hills and mountains, creating a sense of depth. The sky is a pale, hazy blue. The text "Thanks for your attention!" is centered over the middle of the image.

Thanks for your attention!
