

Мы потеряли счет утратам, в том пекле, где горел металл.

И я в те годы был солдатом, и все прошел, все испытал.

Но мне, отец, судьба судила вернуться в дом, обнять своих.

Не знаю, где твоя могила, да мало ль по Европе их!..

Я в день Победы рано встану, куплю цветы к такому дню.

Приду к солдатскому кургану, на площадь, к вечному огню.

Приду со многими другими, цветы оставляю и плиты.

Быть может, и к твоей могиле, положит кто-нибудь цветы». Борис Данилов [2, с. 12].

В День Победы положит кто-то из наших соотечественников цветы на могилы неизвестных солдат, наших родных, пропавших без вести в той страшной войне. Пусть на солдатских обелисках нет имён погибших, все они — Герои, сыны своей Родины, честно выполнившие свой долг перед Отечеством.

Война закончилась, отважный воин вернулся в родное село, в Киевку. Год проработал в районном комитете коммунистической партии, женился. Потом его пригласили на работу в правоохранительные органы: милиции нужны были сильные мужчины, а прошедшие военную

закалку ценились вдвойне. Это случилось в далеком, теперь уже, 1947 г. 36 лет Ж. Баймагамбетов проработал в органах внутренних дел. За безупречную службу он был награжден многочисленными медалями и грамотами на мирном фронте по охране правопорядка. На заслуженный отдых ушел в звании майора милиции. На праздновании 60-летия победы в Великой Отечественной войне районный военкомат поселка Киевка торжественно вручил медаль и благодарственное письмо от Президента Республики Беларусь Лукашенко А.Г. «За освобождение Беларуси от немецко-фашистских захватчиков» от 3 июля 2004 г. Также ему было присвоено звание «Почетный гражданин Нуринаского района».

Жанабил Баймагамбетов умер в 2007 г. Всю свою долгую жизнь он посвятил служению Отечеству, своему народу. В 2012 г. в отделе внутренних дел Нуринаского района Карагандинской области, где он проработал много лет, был открыт уголок боевой славы, посвященный моему прадеду. Некоторые документы, фотоматериалы, личные вещи прадедушки были переданы именно сюда. Я горжусь своим прадедом, стараюсь во всем походить на него. Память о нашем герое останется с нами на всю жизнь.

Важно помнить о Великой Отечественной войне. Наша задача — не допустить повторения тех событий. Только сохранив память об ужасах войны, через которые прошли наши деды и прадеды, можно построить будущее без кровопролитий.

Khorezm region is rich in tourism potential. A number of historical monuments, located in its territory for centuries attracted the attention of researchers and tourists. But in recent times, historical monuments serious is being paid serious attention to work on reconstruction and the creation of modern forms is not universally shows. As a result, on March 20, 2013, President Islam Karimov signed the declaration of «The development of tourism in Khorezm region in 2013—

2015». This document is provided for the reconstruction and construction of tourism facilities, development of tourism infrastructure transport, tourist routes, new routes, the development of products and services. So part of the program the total amount of 86.76 billion US dollars in the region of 118 projects planned to be carried out. These funds based on tourism, exports, envisaged to increase the number of tourists and the location of hotels.

February 2, 2012 at the initiative of the Khorezm regional administration building of the State Property Committee of the Republic of Uzbekistan and the development of business tourism in the Khorezm region. Fund was established in 2012–2015 to increase the export potential of tourism services on the implementation of measures designed to address the software developed in the project [1, c. 2008–2015]. According to him, the history of our region on the basis of various types of archaeological finds, national costumes, national musical instruments, National Cultural Landmarks of bread, rice, melons, water-melons and other areas, such as the picture gallery contains museums, restaurants and entertainment for tourists spa services. A national organization of exhibitions of handicraft products and their processes, the development of eco-tourism in the region for a small camel caravans across the desert, which is the organization of tours, desert plants, sand dunes to watch the landscape was planned to attract tourists. Bogot district Kalazhiik the only castle in Central Asia, «the Dead Sea» for treatment and rehabilitation into a tourist complex, «Xozarasp fortress» around the infrastructure (shops, cafeterias, gift headstones) and to attract tourists. Khiva, «wind park» «Chor gorges», Khan garden areas, such as the effective implementation of the projects underway.

Business Fund projects in Khorezm bread, dishes and other food outlets covering the history of museums and traditional food and quality improvement. After all, the uniqueness of the region's ethnography. In Khorezm cuisine and regional consumer, culture is quite different from other regions of the republic. Visiting the oasis of foreign tourists and guests will visit various regions of the local oasis ate and resolve the issue. After all, the representative of the people of any nation other than the consumption of local food can cause considerable inconvenience. Of course, Khorezm improving the quality of the food to increase their range of traditional and modern designs through the development of tourism facilities. As for the tourist complexes around the organization of catering outlets. These services are now also available. However, a strong need to be reconstructed, the existing and new ones are needed to create a modern basis.

Currently, the region's traditional cuisine is available in the region has some of the traditional food (Barack eggs, rice, butter, Gomma) may find. The rest of the verandah or selling food filled with the invitation. Of course, such a situation cafeterias and a good opportunity for a great investment. However, you have full coverage from traditional Khorezm

and traditional tourism, created a comprehensive view of the kitchen is important to attract the attention of tourists. We believe these kitchens that will be packed with tourists and the cultural level even higher level. What is the role of traditional dishes in the development of tourism in Khorezm? The question arises.

First of all food outlets should be included in the complex of the famous historical monuments. Secondly, kitchens, construction or reconstruction of the traditional style. Third, you need to make a list of traditional dishes and stuff. Because of Khorezm sharply continental climate of the winter cold, summer heat. So there is a kind of consumer culture were formed depending on the seasons. So, the kitchen staff in the winter, summer, spring and autumn dishes must distinguish between good. Otherwise, you can be a tourist or a local visitor's reactions. Resistance, which in turn undermines the potential of tourism. To avoid such negative consequences for employees of the catering outlets of traditional dishes of the history, the culture of consumption familiarization training manuals and the organization of training courses. So, the waiter guides, as well as in their national costumes.

Fourth, the main tourist attractions like the autumn and spring, taking into account the visit in the first months of the season, should draw attention to the food consumed in the same period. Create new designs of traditional dishes.

The interior of the rooms is the fifth national equipment. (Local wooden tables, Khorezm traditional fabric quilt, local ceramics) tour travel season, hotel kitchens may not be useful to organize an exhibition of national dishes. Some cafeterias filled with the traditional dishes that reflect the history of the museum is better organized.

In a word Khorezm boundless sand dunes in a lasting beacon, a green oasis, and the hard place of progress. And knew the sacred nature of all things rational, creative people. The region in spite of the obstacles preventing civilization to connect with the natural cradle of its culture into a very attractive country. Endure the cold peaks reach hearts tremble, fearful abode of the brave heroes of the spirit. Today Khorezm more attractive thanks to a lot of hard work and visit the beautiful nature. After all, the development of tourism infrastructure in the region can become famous all over the world, and there is reason enough. That a professional army, unique accent. Khiva melons, high-quality rice, Karvåg apples, pomegranates, Khiva and Bogot popular today Khorezm nutrition fame plateau rises this planet.
